Infamous Iron Man is a 2016 12-issue maxiseries by Marvel Comics, written by Brian Michael Bendis with art by Alex Maleev.

In the aftermath of *Civil War II*, Tony Stark is in a regenerative coma and the mantle of Iron Man is held by a reformed Doctor Doom. So how does the greater superhero community react to the new Armored Avenger?

Not well. Stark did not actually pick Doom as his intended successor. S.H.I.E.L.D. is eager to arrest him for his past crimes since he is no longer secure from prosecution. And Thing? He's holding a serious grudge. Villains, on the other hand, view Doom as a traitor and set their sights on his former empire. The Wizard and the Hood, who had previously viewed Doom as untouchable, now see him as a viable target.

Pursued by heroes and villains alike, Doom contends with the mysterious return of his long-deceased mother as he battles a foe who can alter the very fabric of reality.
